

Exploring Consciousness

22-23 April 2017

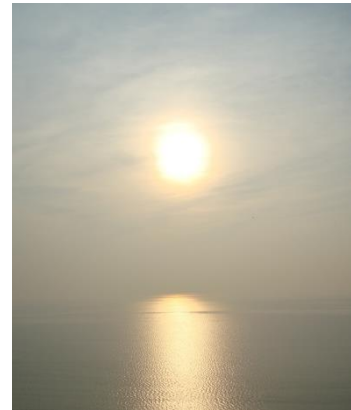

Teacher: Peter Dawkins

*Haus der Begegnung, Seminarzentrum, Mühlenstrasse 2,
31812 Bad Pyrmont, Germany*

In this weekend workshop, Peter will lead us into an exploration of consciousness using meditational and other techniques derived from knowledge of the Cabalistic Tree of Life, Chariot (Merkabah) and Wheel of Life, to help us get to know ourselves better.

Exploring consciousness in these ways is an initiatory experience, which can be both healing and revelatory. It is an exploration into our psyche, our soul, and even higher levels.

The workshop will be in English, with German translation.
